

FRAPPANT E.V.

INSTRUCTIONS FOR THE VISIT AT FRAPPANT GALERIE

We appreciate your visit and hope you will be inspired by our exhibitions. Please note that, due to the current situation, special rules of conduct apply to your visit: the circumstances surrounding COVID-19 change the way we interact with one another and how we visit exhibitions. Responsible behavior and consistent adherence to hygiene measures are of utmost importance. We therefore ask that you strictly observe the current mandated rules in order to protect yourself, other guests and visitors as well as our staff.

1. If you feel sick and feverish, we ask that you refrain from visiting the Frappant Galerie for everyone's protection.
2. Please wear the recommended mask during your entire stay at the Frappant Galerie.
3. Please understand that, at the entrance, we must limit the number of visitors allowed inside the Frappant Galerie at any given time to 14.
4. Should wait times arise, please wait within the distances marked on the floor.
5. Within the premises, please maintain the required distance of at least 1,5 m to others. Please use discretion and caution as you move through the premises.
6. Please observe the recommended hand hygiene, use the disinfectant we provide wherever possible and avoid needlessly touching objects or surfaces.
7. Unfortunately, it is not currently possible to visit our exhibitions in groups or as part of guided tour/event.
8. We kindly ask all the visitors of the exhibition to write their contact-details down in the list that has been laid out.

Access to the Frappant Galerie is conditional on full compliance with the measures listed above.

We thank you for your understanding and hope that, in spite of the restrictions, your visit to the Frappant Galerie will bring you joy, pleasure and inspiration.
